PROFILE SUMMARY

Versatile professional with a Bachelor of Computer Science (Hons) in Artificial Intelligence and hands-on experience in **banking, customer service, and software development**. Recognized for excellence as a **Bank Teller at Bank Rakyat Indonesia**, delivering accurate, high-volume transactions with strong compliance. Previous software engineering internships enhanced **my UI/UX, coding, and Agile collaboration skills**, which I have successfully applied in hackathons and competitions, combining **analytical thinking, adaptability, and problem-solving** across various industries. Seeking to apply analytical and programming expertise in software development or AI-driven roles.

EDUCATION

Asia Pacific University (APU)

Kuala Lumpur, Malaysia
